Subject: Radley CE Primary School - Response to Radley Neighbourhood Plan, Second Consultation Draft, September 2017: Regulation 14 consultation

Dear Jane,

Thank you the Parish Council's invitation to respond to the Second Consultation Draft of the Neighbourhood Plan, September 2017

There are two representations I would like to make please:

1 With regard to **C9 on page 30** the governors and I are in support of this section being expanded to include the nursery facilities at Radley Primary so that the section reads:
C9 Nursery facilities - Radley Parish Council will press for and support the expansion of nursery facilities at St Swithun's and at Radley Primary School.

2 With regard to section **4.9 'Village Connections and subsection 4.9.2 Outcomes Sought'** and the North-West Radley housing site, we ask that the word 'safe' is inserted before 'pedestrian crossing' so that the section reads:

*There should be vehicle access onto White's Lane, pedestrian/cycle and possibly car access from the north of the site onto Church Road, and pedestrian/cycle access from the south of the site towards the station and pub. There should be a **safe** pedestrian crossing between the site and the primary school.*

With my thanks,

Grace
