Dear Clerk for Radley Parish Council,

Many thanks for asking the CCG to comment on your Neighbourhood plan. As the CCG's co-ordinator for practices in the SE and SW localities of Oxfordshire I am happy to be contacted if you have any questions for the CCG.

After reading your document the main point we would like to make is noted below:

Health and GP services are an important component of any community. Any development over 200 units would impact locally on health service delivery.

The CCG would look to provide new facilities or support the existing provision for your area to expand .

To support this increase the CCG would look for CIL or Section 106 funding to support this important infrastructure development to ensure the health needs of the local population are met.

Do come back to me if you need further information.

Many thanks, Anne
